

Manchester Coalition Against Cuts

SAVE OUR SERVICES!

Public conference

12th November 13:00 to 15:00

Mechanics Institute, Princess Street M1 6DD

Manchester City Council has announced massive cuts to social care in our city. These cuts target the most disadvantaged and vulnerable: people with disabilities and mental health problems, the homeless, victims of domestic abuse, teenage parents, people trying to recover from drug and alcohol dependency. Manchester Coalition Against the Cuts thinks that these cuts are cruel and unnecessary. CEOs are handing themselves pay increases of 49%, including CEOs of companies that owe billions of pounds in tax, while the government can find billions to fund wars, and yet money to run vital local services is being withdrawn.

If we unite we can resist these attacks. Manchester Coalition Against Cuts has organised a public event to bring together people who are affected by cuts to services. Workers, service users, trade unions and everyone who wants to protect social care in Manchester are all invited to attend.

We want this meeting to send out a clear message to Manchester City Council and the government:

- We need our services, we will fight to keep them!
- Tax the rich, share the wealth!
- We are the 99%, we will not pay for the crisis!
